Hearing: Your letter of 04.04.2023, Your sign 32.65 C 2367 B

21 April 2023

Dear Mrs. Schmette,

I am writing in response to the letter I received from the Ausländerbehörde regarding the extension of my residence permit.

First and foremost, please accept my sincerest apologies for not submitting the required documents on time. I would like to explain the reasons for this delay.

After completing my course credits in September 2021, I was eager to apply for a thesis in the field of data analysis and deep learning, as it is a subject that greatly interests me. However, as I had not taken a course on this subject at the university, I was unable to secure a thesis topic. As a result, I began applying to companies for thesis opportunities. Unfortunately, I did not receive any offers and many companies did not respond to my applications during the Covid-19 pandemic and I have received many rejections.

In the meantime, I completed few online specializations related to deep learning, Data analytics (please find attached certificates of the courses, which I attended until September 2021 and May 2022. And also I have worked on a few personal projects in this field. After gaining more confidence and knowledge, I applied for a thesis at the university once again. This time, one of my professors Dr. Sylvia Saalfeld responded to my application saying that she has topic that I am interested in. However, due to the professor's busy schedule, we were only able to meet and finalize the topic after a month in February 2023. Immediately after our meeting, I began working on the literature survey and planned to register my thesis once I receive the necessary data from my professor. It was at this point that I requested a letter from the examination office in February 2023 and submitted it to you as my deadline was approaching.

I am pleased to inform you that everything has now been resolved and that I have registered my thesis at the university as of April 17th, 2023. The submission date is September 18th, 2023. I can assure you that I will complete my thesis by the specified date.

Regarding my financial status:

I have worked with Randstad until June 2022 and then until October 2022, I had some funds with me and also I was supported by my family (As my father do not know how to transfer to German account he has given the amount to my friends family in India and my friend here paid me the amount of 1000 euros in October 2022). Since November 2022, I have been working for GI Group (proof of employment is enclosed) and have been earning enough money to support myself. Throughout this period, my financial condition has remained stable and I have not faced any financial difficulties.

Along with this letter I am enclosing all the documents mentioned by you.

I am highly motivated to complete my Master's thesis and am committed to working hard to achieve my goals. I am confident that this project will enhance my knowledge and skills in Deep learning.

I request you to kindly consider my request to prolong my residence permit till November/ December 2023 and give me an opportunity to finish my Master's degree. I am sure, that I will finish my study in specified time successfully.

Please let me know if you need any other information from my side.

Thank you for your time and consideration.

Sincerely,

Naveeth Reddy Chitti

Enclosed:

1. Rental contract
2. Certificates from insurance company
3. Proof of work from the company and bank statements of last 6 months (The proof of April I will send as soon as I get it.)
4. Enrolment certificate
5. Transcript of records
6. Master thesis Registration

7. Proofs of attended courses related to deep learning and data analytics specializations
